

SOLINK

SPECIALISED RENEWABLES CONSULTANCY

BRINGING THE POWER OF
RENEWABLE ENERGY TO
YOUR BUSINESS

THE MARKET CHALLENGE:

With rising electricity tariffs and falling costs of renewable energy, the decision of whether or not to invest in renewable energy solutions has become a simple one. The process of procuring the most effective solution, however, can be filled with obstacles, mainly due to information asymmetry between the client and supplier.

Mission

SOLINK will assist you to overcome the significant obstacles in implementing effective renewable energy projects, by decreasing the time taken and the associated risks of procuring a cost-saving, clean energy system for your business.

1

Information asymmetry.

2

Lack of clarity on system sizing and development requirements. Unrealistic assumptions made by Suppliers.

3

Inability to effectively compare Supplier proposals.

4

Premature appointment of a Supplier or a stalled procurement process.

5

Significant scope price and schedule movements post award of project.

6

Clients held to ransom by Supplier, or forced to restart procurement process.

CLIENT FEEDBACK:

Old Mutual Properties – National Technical Manager:

SOLINK’s service offering proved to have added value to our solar PV procurement process, by reducing the cost, internal efforts and duration as well as identifying and mitigating any associated risks.

British American Tobacco – Engineering and Facilities Manager:

Communication with the SOLINK team was clear and regular and we were never left in doubt in terms of project status and progress. I will highly recommend SOLINK as a service provider on similar projects.

Holdfast – Managing Director :

SOLINK was able to ensure we got a correctly specified system of the highest quality from a reputable supplier. SOLINKs competitive procurement process resulted in us getting a final system price that was over 15% less than we had received in our own direct requests for pricing from solar EPCs.
